

F/MIS ORGANISATION

Offer an user-friendly centralised vision of all documents, Internet and Intranet links of the bank.

BEARINGPOINT AND ITS NEW F/MIS SOFTWARE

The originality of F/MIS consists in the offer of standard software for Management Information at a competitive price for private banks, composed of various modules (F/MIS profitability, accounting, interest margin, compliance, customer visit report...).

For an easier integration F/MIS covers the entire cycle of production of decisional information, from the extraction of data out of the source systems, the safeguard and archiving in a database, the calculation of indicators and their presentation.

With more than 200 banks as clients in Switzerland, in Luxemburg, in Germany and in Italy, BearingPoint also offers reporting software for private banks in the legal (F/RE) and fiscal (F/TAX QI and EU) sector.

FUNCTIONALITIES OF F/MIS ORGANISATION

By the means of a user-friendly system based on an Intranet interface, F/MIS Organisation offers a centralized environment that allows the management of documents and lists of Internet and Intranet links in a simple and efficient way. Thanks to an access control one or more advanced users can manage the contents of the portal and publish, edit, modify or delete documents or links.

The FiMIS Organisation module can administer all document types and all link types. Documents, links and short-cuts can be saved in many different formats (Acrobat PDF, Word, Excel, links http, ftp,...).

WHO IS THE TARGET OF F/MIS ORGANISATION

The F/MIS Organisation software is conceived for banks that need to administer their internal documents as well as their Internet / Intranet links in a simple and efficient way, in order to put them at the disposition of the final users within the bank.

The choice of documents and links takes place with thumbnails and menus that can be parameterized according to the roles and rights of the users.

It is possible to organize the documents and links within groups that can be administered individually.

THE STRONG POINTS OF F/MIS ORGANISATION

- User-friendly and simple parameterization;
- Easy installation thanks to the intranet port;
- Centralized administration of documents and links;
- Access defined according to the rights and roles of the users;
- Archiving of the documents in the file system or in a database of choice;
- Module integrated in an MIS that can be used by other modules.

READY TO USE FUNCTIONALITIES

- Publication and update of documents and links;
- Inquiry of documents and redirection to all kinds of links;
- Update and complement of information on the existing documents;
- Management of the access authorization.
